

Literacy

The children will be learning to recognise emotions, read their names, self-register and explore a range of story books about starting school. They will be engaging in conversations about stories and learning new vocabulary. They will be making marks using different media.

Maths

Using number rhymes as our starting point, we will be learning to count beyond 5; comparing quantities, learning about 'more than' and 'fewer than' and exploring 2D and 3D shapes through model making.

Understanding of the World

The children will learn about similarities and differences between themselves and their peers. They will use their senses to investigate and explore the natural environment around them, while also taking part in local walks around the school.

Year Nursery: Autumn Term *Curriculum Overview*

PSED

The children will be learning the nursery routines, creating class rules and recognising emotions. They will be participating in turn taking games, trying out new activities, selecting resources independently and learning to think about the feelings of others. They will be developing their personal hygiene: such as using the toilet and washing their hands independently.

Communication and Language

The children will have many opportunities to listen and talk to each other about themselves and their families. They will be supported in developing their confidence in communicating their wants and needs, while developing a wider range of vocabulary.

Physical

The children will be developing their fine and gross motor skills through climbing, running, riding, throwing and catching. They will be learning how to use tools safely using malleable and sensory materials. They will be learning to put their coats on and do up their zips independently.

EAD

The children will be drawing pictures of themselves and their family, learning about colours and using them appropriately. They will be singing their favourite nursery rhymes and songs; role-playing in the home corner and using a range of materials to make collages and models.
