

English

Children will learn to use prepositions in descriptive writing and similes in narrative poems. They will also learn to write and structure a non-chronological report and write stories with familiar settings. They will learn new spelling rules; focus on developing their cursive handwriting skills; continue to work on comprehension and inference in texts and practise editing and improving their writing.

World Class School

Geography

Children will understand and explain what 'land use' means and investigate how land is used in Sutton and London. They will learn new vocabulary, including: residential, commercial and agricultural. They will use these to compare Sutton to other places in the UK. Children will learn the skill of using a 4-figure grid reference on an OS map whilst looking at changes in London.

Music

Children will learn to sing in the style of R&B, Western Classical, Musicals, Motown and Soul. Classes will also learn drumming throughout the year.

Art & Design

Children will experiment with printing techniques whilst exploring the work of the architect Zaha Hadid.

PSHCE

Children will focus on the topic 'Being Me in My World' and 'Celebrating Difference'. They will set personal goals, understand self-identity, work on keeping positive when approaching challenges and seeing things from others' perspectives. They will move onto learning about families and conflict.

Science

Children will learn about light and shadows. They will explain how we need light to see things and identify reflective materials, using scientific evidence. They will investigate patterns related to changes in the size of shadows. Children will study the characteristics of humans and other animals. They will look at the skeleton, classify animals and understand the difference between carnivore, omnivore and herbivore. They will also classify foods into groups and explain what constitutes a balanced diet.

PE

This term, children will learn and practise skills through:
-ABC (agility, balance, coordination)
-Fitness (personal health)

RE

Children will consider how religious stories may relate to their own lives. They will explore some teachings of Jesus and Buddha through stories. They will also learn about the importance of light in different religions. Children will learn about the Hindu festival of light – Diwali.

Maths

Children will look various mathematical concepts this term. In addition, they will chant daily (for example, times tables) and complete 'Big Maths' challenges on a Friday.

- Number: place value
- Number: addition and subtraction
- Number: multiplication and division

History

Children will sequence significant events in Sutton and London, using a timeline. They will also use sources and enquiry skills to understand different aspects of life in London. Children will compare the similarities and differences between these towns to understand the significant changes over time.

Computing

We will continue to use the 'KAPOW' curriculum. This term, we are focusing on children staying safe online as well as developing their coding skills using 'Scratch' to create and then debug a short animation.

French

Children will learn to say some simple words/phrases about themselves in French, including formal and informal greetings. They will practise the correct pronunciation of numbers from 1-30.

Design & Technology

Children will look at various products sold in shops, before designing and making one of their own that could be sold in a shop in Sutton/London, using their sewing skills.
