

English

Children will continue to work on features of spoken language, participate in group and class discussions and ask appropriate questions to widen their knowledge and understanding. They will also work on retrieval, inference and deduction skills as well as developing a wider range of vocabulary when reading; this will be encouraged through the variety of texts that will be used in class and the whole class reading books. The writing they produce will be linked to a range of texts and will focus on writing for an intended purpose and audience. They will use dialogue in narratives to convey character and varied devices to build cohesion within paragraphs.

World Class School

Maths

Children will look at the area of Maths listed below this term. As well as these they will chant daily (for example, times tables) and complete 'Big Maths' challenges on a Friday.

- Number: place value, addition, subtraction, multiplication, division.
- Fractions: comparing, ordering, adding and subtracting.

Geography

Children will understand the key aspects of Europe, including Russia. They will name the countries and major cities of Europe, identify which countries were involved in WWII, name the environmental regions, create a map of the European population densities and use the eight points of a compass, symbols and keys to build knowledge of the wider world.

Music

Children will enjoy learning how to play the ukulele. They will also work on their performance skills. The children will learn to sing *Livin' on a Prayer*, by Bon Jovi and explore various aspects of music related to this piece of music.

Art & Design

Children will be learning key drawing and painting skills through a project inspired by the artist Clarice Cliff. They will look closely at her bold, colourful pottery designs and explore the patterns, shapes and colour choices she used.

PE

This term, children will learn and practise skills through:

- ABC (agility, balance, coordination)
- Fitness (personal health)

Science

Children will be investigating the properties of materials and how they can change. They will be asking if all solids are soluble and how solids can be separated. They will also predict, test, collect results and draw conclusions when mixing substances before considering if some changes can be reversed.

PSCHE

Children will focus on the topic 'Being Me in My World' and 'Celebrating Difference'. They will discuss their plans for the coming year, what it means to be a citizen, how behaviour can affect groups and broaden their knowledge of democracy. They will also discuss conflict, including racism, name-calling and types of bullying.

Design & Technology

Children will design, make and evaluate a model Anderson Shelter. They will produce a step-by-step plan, cut materials accurately and use appropriate tools to cut materials.

History

Children will consider the impact of World War Two within British History. They will ask relevant historical questions linked to WWII, use dates and historical terms when describing a past event, think about daily life during this time and understand the differences between a primary and secondary source.

Computing

Children will dive into Online Safety and learn how to use search engines wisely and effectively. Through fun, interactive lessons from our Kapow Computing curriculum, they'll discover how to stay safe online while becoming smart digital explorers! Alongside this, they will be using MicroBits to create a pedometer, a temperature sensor and animation.

French

Children will discuss and write about a variety of food and drinks, and explain their likes/dislikes in French.

RE

Children will consider the overarching question of 'What impact do beliefs have on actions?' through interpretations in many different religions.
